A Heart For Puppies, LLC reserves the right to confirm diagnosis of above dog/puppy with a licensed veterinarian of their choice. A Heart For Puppies, LLC will NOT be responsible for any expense(s) the Buyer(s) may incur, including shipping and veterinarian expenses concerning above dog/puppy, after completed sale unless such expense is due to Genetic defect. A Heart For Puppies, LLC can not control the exposure your new dog/puppy encounters after leaving our home on its journey to their forever home. Dog/Puppies can, at times, experience stress when moving to their new forever homes. Stress can be brought on due to change of environment, change of routine, the move/journey, change of diet, excessive handling, not enough quiet time, or not eating properly. These stresses can cause issues such as, but not limited to: loss of appetite, colds, hypoglycemia, coccidia (coccidiosis), and/or giardia (giardiasis). These conditions are treatable and do not warrant a replacement or refund of dog/puppy.

If puppy is seen/inspected by a licensed veterinarian within 5 days of leaving our premises, A Heart For Puppies, LLC will cover costs associated with a giardia and/or Coccidia diagnosis up to \$200 (two-hundred dollars)

A HEART FOR PUPPIES, LLC WARRANTY DOES NOT COVER:

*Internal parasites, such as intestinal worms, giardia, coccidia and many others, are very common. Though we are on a continued protocol of de-worming, it only takes a brief encounter for a puppy to contract any one or more of these parasites as the immune system is not at full strength. A simple walk on a sidewalk or in a park can infect your new puppy

A Heart For Puppies, LLC strongly recommends, but does not require, Buyer(s) spay or neuter above dog/puppy.

It is you (the Buyer/s) ultimate responsibility to provide love and care for your dog/puppy (adequate food, water, shelter, and veterinary care, etc...)

Please be aware as a new dog/puppy owner, you share in the responsibility to help prevent hip dysplasia and luxating patellas, as these issues are not only a hereditary issue, but can be environmental; jumping from high places, up and down stairs, etc... Through proper diet, proper exercise, and quality living conditions, you will play the primary role in the growth and development of your new puppy.

There is NO guarantee on the color or size of the above dog/puppy now or as an adult
I/We, the Buyer(s), do hereby agree to the terms listed above.

Please call to keep A Heart For Puppies, LLC updated on any issues and/or concerns.
